DETAILED ACTION

Information Disclosure Statement

1. The IDS, filed 10/17/03 and 3/30/04, have been considered in full.

Drawings

2. The drawings, as originally filed, are acceptable as formal.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 3-4, 8-9, 12, 15-18, 25-27, 33, 37-51, 54-57, 59-61 are rejected under 35 U.S.C. 102(b) as being anticipated by The Ridge Tool Company catalog dated 1999.

The Ridge Tool Company catalog shows the claimed invention including a container which catches oil from a cutting process, filters the oil and then returns it to a spray head, the oil passes through a filter which snaps on to the base container.

Claim Rejections - 35 USC § 103

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein

Art Unit: 3682

were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 13-14, 28-32, 52-53, 58, 62 are rejected under 35 U.S.C. 103(a) as being unpatentable over The Ridge Tool Company catalog dated 1999.

The Ridge Tool Company catalog shows the claimed invention as described *supra*.

But The Ridge Tool Company catalog does not show feet on the container of the hose fitting at 45 degrees.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to put feet on the container to raise it off of the floor and to provide an angled hose fitting for stress relief at the fitting.

Allowable Subject Matter

7. Claims 5-7, 10-11, 19-24, 34-36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3682
